

HELP TO SAVE STANTON MOOR HILLSIDE!

There is currently an application to open two dormant Quarries at Endcliffe and Lees Cross just below the Nine Ladies Stone Circle. If the permission is granted The Quarry site will cover over 30 acres and have a massive impact on the hillside and moor. It will destroy thousands of trees, habitats for a diversity of wildlife and natural springs. It threatens the Nine Ladies Stone Circle, other archaeological sites and the surrounding villages.

WE need you to encourage the Peak Park to apply its power, under the 1995 Environment Act to request that the secretary of state for the Environment REFUSES to grant the license to Stancliffe Stone Ltd.

IF YOU SHARE THE CONCERNS OF MANY
Then write to:

1. Mr J Anfield, Head of Planning, PDNPA, Aldern House, Baslow Road, Bakewell DE45 1AE. Objecting to the proposed plan.
